FIFTY YEARS FORWARD WITH FORD

1953

another great FORD OF CANADA

year!

Down through the years, Ford of Canada has grown with Canada through serving and satisfying Canadian car and truck owners.

The vast, world-wide enterprise bearing the name of Ford has been built upon a reputation for quality and dependability. Ford precision, Ford accuracy, Ford durability are traditions in Canada's motor industry. They remit from expert craftmanable, careting standards for material and production, and the finest and best equipped manufacturing facilities.

Now comes 1933 . . . Ford of Canada's 50th Year . . . unquestionably the greatest of all Ford of Canada "years". For this year will see the biggest of all Ford of Canada expansion programs—a program largely in the bloeprin stage just months ago—turn plans into plants.

a program targety in the observant stage just months ago—turn plants and operating facilities and to improve existing ones. Half is being invested in our Windoor operations to provide the largest and most up-to-date automotive engine plant in Canada—the most advanced frondry—a \$7,00,000 addition to the power boses—and a machine shop that will rank second to none in modern tools and precision equipment. In Tratifager township, near Oakville, Oxtanto, a giant plant—now nearing completion—will start the extend assembly of cars and trucks by early summer.

Ford of Canada is in the automobile business: All its facilities are for one purpose—the production of more and better cars and trucks, and to provide the best possible service for our customers through our 1,100 dealers from coart to coart.

We are doubling the value of our facilities in Canada, plowing back into our company the equal of every cent of profit we have made since 1985, because we have faith in Canada and faith in our company's future. We know these facilities will men better cars and trucks—and better, values for buyers—because these plants will unquestionably be the most modern, best-equipped, and most efficient of their kind in this country.

But, if officialdem can help it; there will be no zery evi-dence on the ice of physical combat. There will be no limb of the gladiators adoraing the ratters, press box, the sylve of the city hall, or the morthern shere of Prince Reward

And that is the way it should be. It seems not a few of blade-shod buccaneers in not only the senior "B" loop but for "B" and other leagues have been getting in sundry digs, s, pokes and sings in full view of the linearmen who is pow-ses to act unless the sin warrants a major penalty.

So, as a tip to the wise, don't miss iomorrow night's lusty battle between the Goodles and the Glens. It should be fast, furious becker with plenty at stake. No quarter is unsuly saked nor given when these teams meet, and with two referees on the job and the battling troops aware of the fact, the tilt should be one of the best of the season.

And here's runbilings of asother threat. That Steeff-ville-Orbits score has arrived, and look what happened. The Featless wayneed the Clippen 18-16 for their second consecutive victory to reck up 13 points, just 'three behind stay's tear dropped in his 'colot." The Positions must have writeded their first and had a new greens job, or conclibing for flavy were their last two starts, by impressive some, bold, aspins the Clippers. Their halfs with starts, by impressive some, bold, aspins the Clippers. Their halfs with starts, but of deficied by Yeleroscaph 3-4.

A small but enitualistic crowd greeted the OMHA officials rum at the Kiwania Centre last night. Doug Patterson, Stir-ag, and Albert Waltan, Peterbough, both OMHA execu-re members were in charge and gave out with some highly in-erting into regarding arrangements before, during and after entiting into regarding arrangements before, during and after study circumstances well before entering the "quantum".

Flayer insurance was well discussed and it was pointed set that nearly 90 per cont of players registered were taken care of by the plan. It overes insurance up to an amount of 8250 per player at a cost of one dollar per player. Par-nuts of players were urred to study it and assist clubs and organizations in financing it.

The Belleville Minor Hockey Association was represented by red Doran, Don Stanton and A. McKenzie and all information nording the insurance plan will be given coaches and managers city teams in the immediate future. Managers will be asked assist in the collection of premiums and other work neces-y to the securing of the insurance for the association.

COPENHAGEN (AP)—Princes Margrethe, pretty, vivacious, 12 year-old daughter of King Fred-erik, was named heir presumptive to the Danish throne Wednesday, The deal was made in a conpromise agreement of major p cal parties on a series of

cal parties on a series of cost stitutional amendments.

The heir presumptive hid been the king's brother, Prince Kmd.

Under the change in succession, Denmark, after the eventual death of Frederik, could have a ruling deepen for the first time in more than 500 years.

Only the advent of a little brother would senove Margrethe from the top of the succession line.

A Statement by CANADA'S FIRST BANK ...

To those who want to get ahead

It's good to go into debt... to yourself

It's the streamlined way to make financial progress. Some of our most successful customers use this system. It's the very beast of Personal Planning—the Bof M's method of family-financing which Canadians from coast to coast are finding practical and stimulating.

It means putting yourself on your own pay-roll... making up your mind that you yourself have a claim on your income just as much as the landlord, the butcher and the tax-collector.

You'll do this, of course, because you have a definite objective—a strong reason for saving. It may be a general goal like family security... or it may be something specific like a new refrigerator, a house, or even

You can go into debt to yourself in two ways - by saving and by

Saving comes first, of course ... so much a pay-day ouing to pourself.

A bank balance gives you personal confidence as few other things can. It gives you a good foundation for your financial plans ... and it makes it easier for your B of M manages to lead you omosy when you want to realize an objective sooney than you otherwise could.

When you have a sound financial program, but need money for some useful purpose, borrowing at the Bof M is just as sound as systematic saving, lodeet, it is another form of saving, and it is the Bof M is business to lend you money, when it's good business for you to borrow.

A B of M Personal Loan simply enables you to enjoy sooner the things you plan for... and you pay it off in regular instalments just as you have built up your savings balance.

Why not make up your mind to get what you want whis streamlined way—and open your special-purpose assings account at "MY ADAIN." to concrow. And while you're in the Bank, have a chat with the Manager or Accountant. You will find them ready and interested to discuss your plans and problems.

Coach Dorsa will likely use Johanny Green back in defence position and send Jud Semark up frost in a forward spot. The set-up seemed to be successful in Stoudfield: last Saturday Dorsa will give it mother try lonight. It should be a right morry bettle.

THE "HULL" OF IT!

The next time the Point Anne entry in the Trent Valley ckey League trots out on the Ice, take a look at the line-up. Back on the defence you'll see a statwart blue linesman, whose hair may be greying a bit at the temples but who ham't ferpoiten the beckey tricks he learned years ago and still comes up with a better-than-average performance.

But there's more sthictic ability in the Hull family than Pep" and young Bobby. There's Ronny and Gary, two mop-els who are starting in peece hockey ranks here, while sister plays on a collegiate institute basketball team.

There's athletic sold in them that Hulis.

In any event 1,800 fans had their money turn on the Onhawa Truckers falled to put in an app a last night.

From what we have gleaned from the Ontario Hockey octation, there was no reason, unless it was local, why Othawans could not put in an appearance.

The squawk from Oshawa was they did not know about the change in dates. Faming strange, wot, since the date tast night was one of three changed with the sanction of the D.H.A. and two of which have been played.

In any event, Lorne Cook, O.H.A. executive member, Referres Reason and Casterion refused to go out on the b and award the game to the Glens because they had to the sacction of O.H.A.

Manager Don McNevin when saked by Executive Cook to his whites, said: "We'll take the two points by default, a replayed game."

The Oshawa Truckers' management was inferrated as was the newspaper and radio station CIBO, also all group newspapers of the switch in the dates. They switched their date from January 3rd, in a game with Belleville to December 29th. They also switched a January 24th, date to that of

Pat Gilmour, one of the most consistent, better players for Hawks, teamed up with Doug Hull, who is just as consistent, pace the Hawk's third-period offerative. The teams battled her sluggishly through two periods with the Hawks hold-a one-nobling lead and then the Barrett crew broke loose monther the Bees with a tire-post third period barrage.

On Wednesday the Othawans pay a return visit here and with their playoff chances a strong possibility, they will likely go all-out to smatch the much-needed four points that go along with the vectory.

APPROVED BANTAME

It appears that some of the young players in the bantam looker league are not playing "bail" as far as the game and equipment, ospecially the latter, is concerned. In fact matters have reached the point where league officials have stated failty that unless ALL league equipment seek as resolven, sog, etc., is not on hand at the arean next Saturday morning, the league well be dishunder.

The equipment valued at 1300 was augmented by more to value of 1315 this season. Several weaters and pairs of the have been taken hone by certain players with the result the ma lack sufficient equipment on play mornings. The boys, he is ever exception, officials claim, will assume no responsibility in carring for the uniform, and supervisors have had to he around to collect liens for the kids who want to play.

It seems too bad the majority of the youngsters who want to play the game, literally and figuratively, may have to be de-prived of their favorite sport because of the attitude of a few.

But there it is, fellar. The definish have stated, as men-tioned before, that unless all equipment is returned to the arem. Saturday morning, the bantam loop will be disselved. And the minding equipment will be collected, in any event, just in case a few "don't care" dichards want to feel tough about it.

Canada's \$40 a month universal pension at 70 years has been operating for one year, and the special taxes to pay for 15, for a months. Hence there's a deficit for 1952 and a ioan to the tund from the federal treasury.

The plan, to be "contributory" is based on the "2-2-2" formula, two per cent more on three taxes: sales, personal income (\$40 minimum for full year) and corporate income. The deficit should soon disappear and before long.

Then the cries will come to broaden the coverage by paying larger pensions or by dropping the age requirement to 55.

Second, in a few years there are going to be much bigger proportions of Canadians over. 70 and eligible to receive the pension. From 1941 to 1951 the number over. 70 was increased by nearly 350,000—a gain over-70's moved from 4.0 per cent to 4.5 per cent. 1's only a guess how many three will be in 1961.

Flick Of The Wrist And 'Boom-Boom' Taps In Game-Winner Against Leafs

Take a deep breath, not loo slowly, and you'll get some idea of that time between the gong and the goal in that obsaves Rennes—Black Hawk, lunder till here last infalls. Not that it made any difference, the Hawke had a 'two-pan' margin at the time-led for expursally asks, and some so the groups of the the pool was in the sub-there have Black a palled the trigger on the smallest linearity.

If was one of the briter junier tills with the third per-ist probabing the best herbyr of the game. Mike Chriza, in the Benzuri Vey, descress at least of couple of stars for an orisinating performance axistent the insertion of reversition and only the star of the contract of the Eabert Circus, in the parts are, the other one. Both boys came up with a line performance.

The Hawks now top the roost with 34 points with the Kin Vice in second slot. At time of writing the result of scooping game scheduled for the lakeshore town last nig not available, but on past performances the Vice shot it that one away.

GUNDS AT KINGSTONS

DRIGHTON TOOLSTON!

Meanwhile the Oritile President are rising high on a creet of first similarly risinters, They upset the Peterbersenja Peter last sight by an 2-1 acree in Oritile, and the Lake Stone crew seems besided for a swell in the top-nowl sun. The Orize Rev., who Michael J. Ander the Michael Goodward, and the Company of the

Is cocky Kid Gavilan, world welterweight chample the puts his title on the line next month against the sc attenal neuthpaw Chack Davy, getting a mile too cocky?

The answer may be in that fight last night in Washington ere the Kid, the darling of Cube, decisioned one Vic Car-

Naturally the Kid was a heavy favorite for after all be is one of the "fightinest" champions extant. Last work he clowned his way to an easy decision over Amaz Peck, who-ever he is, in Tamps, Florida.

Firsty of belebities and the wellerweight champ was one of them. He peaced with swin-spacen Eather Williams and with George Murphy, famous picture star, who em-ow'd the inaugural entertalument.

But all this ballyhoo and whatnot didn't have any effect Gavilan's training. His timing was perfect. A sparring tner was asked if he thought the Kid was ready.

"Is he ready?" the S.F. replied, "Brother, that my was

The Kid kept up his end as far as fancy dress yees. He was not putdene by the colorful comboys, cowgais and other characters present at the insuranties. He faunced a presentative desired the property of the place by jewelled bettern, with the ahining light being a vermillen bow site.

Oh yeah, he also kept in the fashion swim by sporting a black homberg hat.

BAYS "JOE"

And while on the bexing subject il is noted that Joe Louis believes that Jersey Joe Walcolt will take back the hoursweight little from Rocky Harchase if and when they meet again. Joe mid fie kept yelling to Walcolt during the fight in which he was knecked kicking by Rocky, to 'don't yel carsiem, and then he did:

"I'm sure Walcott can take back the title because he is a better bexer," opined the ex-changion.

And Joe should know because Jersey Joe gave him fits first time they met back in 1947.

According to a story from New York, Levis' financial situation is still a mystery. He has his fingers in a lot of pics, such as his own hegad of firewater, director of boxing for the International Rexing Club at a reported many of ELA600 annually, and ventures such as movies and exhibitions. He will assist in the filining of his picture "The Life of Joz Lossis." Later he will lose Australia.

Purchases of life insurance from the London Life reached all-time record for Canada

The life insurance purchased by Canadians from the London Life Insurance Company in 1952 reached the new high mark of over \$339,000,000—an increase of \$27,000,000 over, the year before.

Life insurance in force increased during the year by a record amount, \$273,000,000. The insurance on the lives of London Life policybolders, now exceeds \$2,428,000,000, not includ-ing annuities or insounts reinsured with other companies. Today, well over a million Canadians are insured under the London Life's Ordinary, Industrial, Group Life, and Group Sickness and Accident Jians.

Fibes gains indicate growing appreciation on the part of people in all walks of life for the manner in which life insurance an provide money for the future. They also reflect the confidence of Canadianas in the London Life's carefully selected and well trained representatives, and in the ability of the Company proved by its record throughout the years—to provide it—insurance as the cost to the policyholder.

nister of the Holloway Street United Church and President of the Belleville Ministerial Association, we who have our physical sight should remember those handicapped by blindness, and remember also that the Oxford Dictionary defines a handlesp as "momething imposed on one who has superior ability." This is genimposed on one who has superior ability." Talls is generally true of those in whose interest this appeal is being made. One has only to meet with them in their private homes and in homes provided by the Casadian National Institute for the Billiot to discover the unusual ability of those, the Dr. Moon, of Oxford University who, when told by the coullst his sight was receding and that it, would finally leave his, after a terrible spiritual struggle, submitted to the inevitable and in his prayers thanded Gold for the "alkent of Illines".

An Invitation to Visit OUR NEW PLANT During "Open House"

Tuesday, January 27 and Wednesday, January 28 from 7:30 to 10:00 p.m.

You are invited to come and see our new, modern plant in operation. You will see how "Coca-Cola" is bottled by automatic machines . . . how its purity and wholesomeness is protected at every stage. We're mighty proud of our new building . . . and proud, too, that we are part of the business and social life that makes this community such a desirable place in which to live.

Since we began to bottle Coca-Cola many years ago, you have given our product a continued and enthusiastic welcome. We highly prize this acceptance and pledge to faithfully preserve the high standard of purity and quality that you expect when you ask for a Coke.

Over the years, with the help of so many good retailers, we have made Coca-Cola available for your refreshiptent around the corner from anywhere.

We are sure you'll be interested in seeing our new plant-its big, shining machines are models of modern efficiency. So we extend you a cordial invitation to visit with us this Tuesday or Wednesday evening.

Be sure to come-children are welcome when accompanied by adults, so bring them, too. The visit will be entertaining and educational-you'll see coloured movies and enjoy plenty of your favourite refreshment.

KILLED IN COLLESION

The Most Important Ouestion Put to Jesus

There is deep meaning for us all in Jesus' answer to John's searching question (Luke 7), "Art thou he that should come? or look we for another?"

He gave his works as proof of the truth of his words: "Go your way, and tell John what things ye have seen and heard; how that the blind see, the lame

walk, the lepers are cleansed, the deaf hear, the dead are raised, to the poor the gos-pel is preached" (Luke 7). SCIENCE AND

An Invitation to Visit **OUR NEW PLANT** During "Open House"

Tuesday, January 27 and Wednesday, January 28 from 7:30 to 10:00 p.m.

You are invited to come and see our new, modern plant in operation. You will see how "Coca-Cola" is bottled by automatic machines . . . how its purity and wholesomeness is protected at every stage. We're mighty proud of our new building . . . and proud, too, that we are part of the business and social life that makes this community such a desirable place in which to live,

Since we began to bottle Coca-Cola many years ago, you have given our product a continued and enthusiastic welcome. We highly prize this acceptance and pledge to faithfully preserve the high standard of purity and quality that you expect when you ask for a Coke,

Over the years, with the help of so many good retailers, we have made Coca-Cola available for your refreshment around the corner from anywhere.

We are sure you'll be interested in seeing our new plant-its big, shining machines are models of modern efficiency. So we extend you a cordial invitation to visit with us this Tuesday or Wednesday evening.

Be sure to come-children are welcome when accompanied by adults, so bring them, too. The visit will be entertaining and educational—you'll see coloured movies and enjoy plenty of your favourite refreshment,

HIPS OFF THE SPORTS BLOCK

By GEO. H. CARVER, Sports Editor

St. Michael's Burners, third placers in the Big Six janior "B" group up around Toronto way, will be the guests of the funder Hawka here Saturday night in an exhibition till. The proceeds of the game will go to the building fund of the Haly Resnry partial. A right warthy cause.

A familiar face will probably be along with the Buzzers, though he won't see any hockey action. He's Gary Schreider, arry backfielder of St. Michael's College grid squad and rated some of Canada's future Olympic track prospects.

Gary has foregone bockey activities to concentrate on his track work under the well known track and field coach. Lityef Percivial. A week from Saturday he will run in the open AA,U, meet at Michigan University in Ann Arber. Bary. Gary: "The running against once good collect boys in the 68-yard sprint, and likely get my ears irlamed — but it's good experience.

J. F. "Bunny" Abearne, accretary of the British Ice Hec-ory Association, who has come up with more "wrinkles" as a Sieux Indian contenurian, has dag up a face-off idea as a bloud send most lockey-minded Canadians into imp-rallewing fits if not parexyms of guffaws.

According to an overseas despatch, the honorable "Bunny's" latest idea to make the English game stand out from that "as she as played this side of the pond" is to have the two centre players jockey for the face-off with about four feet of ice between

And egad, ecod and gadrooks, men, if one player as much as raffice the bleemin' fluit on the opposing centre's proster, say or moustacks, he immediating gets waited to the rink's Old Enlier for an enforced rest. He will even he denied Ms ten and crumpels, the variet.

The idea which is being met by various opinions along the spentine, the Strand (ave a banana), the Elephant and Castla tienham Court Hond, the swank Savoy or wherever British ne gather, may be adopted when the English National League test the "second att" of its two-piece schedule.

As "Beaux" would have it, the apposing centres would fines each other from behind lines four feet apart. And herrors, most, if one or Violers as much as pokes a plarly over the line he immediately departs for the British equivalent of the size-bit. They will have to reads for the park with the size-bit. They will have to reads for the park with that skitchs like the old mus pointing the floor after discovering he had "held-sport" a strip a few feet away.

E peems the blokes over there den't want their hockey hed my with gore stace, savage physical contacts, or any moneyres designed to disturb hair-des, creases in fresh-pressed panties or change the topography of manly mugs.

They prefer, it appears, the graceful style of the figure ter, the short passes of a hockey era nearly forgotten in Can-the stick-handling wizardry of three decades ago.

One of these puck-chasing George Mikans would have a field day if he were opposed to a centre built along the lines of a bushel crate. All he would need to do is been gracefully from the hips, marmur "Aw7ly sorret, old bean," and mercity swipe the puck back to a mate while little Padgy on the other side would be doing a reasonable facilitie of

However, a Canadian couch in London who halls from Str ford, Ont., one "Red" Stapleford, takes a rather dim view of the proposed rule. He says "It might be useful" and would prefer it on a trial basis and in co-operation with Canada.

"We wouldn't change a hockey rule in Canada," says Red, "so why should we change hockey rules here." Also he said, the idea of "cheap penalties" didn't appear to him.

So "Bunny" may find himself up against strong opposition. It is recalled Ahearne is the man who introduced the elimination of the red line in British hockey. Sald as how it would eleminate rough play and made for more speed.

Canadiens Take Over National Hockey League Lead From Detroit Wings

Using the "two-plaiese" system, the Hawks just failed to calch the hard-checking Kingston Vice last night in a game that started set like a pink ten party and caded in a flurry of field, bedychecke and fast, hard-hitting hockey.

The Vics, battling desperately to strengthen that second-spot ition, practically checked the Hawks into the ice in the first opter and rammed home three taillies before the Barrett men vered they were wearing skates.

They rested back in the second in one of their char-neteristic "come-backs" and mittensted in the cover. In satisfaction of the cover of the cover of the shoulding via the second of the cover of the shoulding via the second on with a little some last be-night have pulled the game seet of the fire. Don Senier in the View set, was the outstanding player of the piece virtu-aily anaching the pool from the sinker of peal-bungary Hawks, or tearning their drive assist.

Three other "herees" were the youngelers supposed to re made up the Hawke' third line, but who sat all three some out fee sixty or more minutes. Coach Barrett used see, Therries, Jacklyn, Hall, Halstead and Gilmour as his acking divisions all night.

We are not trying to criticise the coach's system, but what going to happen if one or more of the "regulars" go down th injuries that will ber them from one, two or more games? said the reserves get plenty of action in practice, but there's tile a difference between a practice grind and an actual game.

Bolleville Meirus banketball intermediates take on the Trunton ROAF Fiyers in the collegiste gymnasium tenighl in what should be a court thriller. The Meirus have met de-feat but once and that at the hands of the boys in blue. Game shorts at 3.30.

Quinawa Truckers have been ordered by the Ontarie Hoc-ny Association executive to play that "controversial" game include for January 19th, on Friday, Nebrary 6th., Gin oys' manager Den McNevin said yesterday. Also the Ont-reas much say the Glens 560 with the Belleville manage-ens hicking in with \$15 for referee fees.

Refusal of payment, which is not likely, will see the Truck-ousted from the group, so said the man in the seat of the miy up Toronto way.

The Glens go to Oshawa tonight to tangle with the Truckers who at the moment are sitting rather prettilly way out in front of the pack. Then Men of McNevin can do with a win, espec-ially at the expense of the Molor City crew, whom they have besten once in their three engagements;

There is a strong movement afoot in the city to reorgan-ies feetball along intermediate lines this coming autumn, and death be surprised to see a fairly strong Belleville entry in a group line-up when the whistics toot for the opening kick-eff.

Ron Longhurst and Stan Creeggan, two football stalwarts the city attended the GRU annual meeting in Teoroto last sket, and med came back with a fairly bright picture. Bill Fry, termedalise ORFU secretary and former resident of this city, consider them all the assistance he could give them sign or gran-sitional lines and will probably be in the city within the next we days to talk matters over.

According to Longhurst the five new teams entered, which beings the total to fifteen are Welland, Onkville, Toronto Balmy Beaches, Toronto Noire Dame and Belleville. The locals would be entered in a group in their own immediates.

The boys must post a bond of \$300 by June 15th, which is returnable at the end of the season.

Intermediate football has received a tremendous impetus in the last two years, especially in 1952 when the Dominion final was played in Winnipeg and witnessed by CRU bigwigs.

It is hoped that a good turnout of gridiron fans of the city will turn out to the discussion meeting which will take place within the next two weeks.
